

Ovyka Audit for Crowd

Get a full audit log of all administrator actions in Crowd, on users, groups, applications, directories.

How to always know who did what, when, where in your crowd administration. A full crowd audit solution

The screenshot shows the Ovyka Audit for Crowd interface. It features a search bar with a magnifying glass icon, a 'Sort Field' dropdown set to 'Date', and a 'Sort Order' dropdown set to 'Descending'. Below these is a table with columns for 'Date', 'User', and 'Event Type'. The table contains several rows of audit logs, such as 'Group membership created' and 'User created'. A large blue banner with white text is overlaid on the table, reading: 'GET A FULL AUDIT LOG OF ALL ADMINISTRATOR ACTIONS IN CROWD, ON USERS, GROUPS, APPLICATIONS AND DIRECTORIES'. In the bottom right corner of the screenshot, there is a logo for 'By Ovyka INNOVATION & IT STRATEGY'.

Ovyka Audit plugin for Crowd allows to get an extensive log of all administrator actions in Crowd, on users, groups, applications, directories. Make sure you always know who did what, when, for compliance needs in case of an audit or for security reasons.
